Languages

Spanish - Native

English - Professional proficiency

German - Basic proficiency

Claudia Araos

Frontend Developer

Portfolio: https://claudias-hub.github.io/_myportfolio

GitHub: <https://github.com/claudias-hub>

Frontend Developer with hands-on experience building responsive web applications using React, JavaScript, and RESTful APIs. Trained in full-stack development (MERN stack) with practical experience implementing authentication (JWT), data persistence, and serverless functions. I apply operational discipline, reliability, and problem-solving skills from prior experience in logistics and customer-facing roles.

Looking for: Junior or Internship role · Remote or Onsite

Work Experience

2015 - 2021

LCM Reinigung GmbH - Cleaning Service

- Ensured high standards of service, time management, and accountability while working across multiple client locations in Berlin.

2011 - 2014

Protours Chile - Finance & Operations Assistant

- Coordinated logistics for group travel (guides, transfers, restaurant bookings) under tight deadlines.
- Supported scheduling, payroll and supplier relations with attention to detail.
- Developed strong organizational and problem-solving skills in a fast-paced environment.

2003 - 2011

Various, Chile - Hospitality & Bookstore Roles

- Worked as waitress, cashier and bookstore assistant, handling daily customer interaction and payments.
- Managed the family bookstore independently at times (cash register, supplier payments, staff supervision and payrolls).

Web Development Projects

MyFlix App – Full-Stack Movie Application

- Tech: React, Angular, Node.js, Express, MongoDB.
- Description: Built full-stack MERN application with secure JWT authentication and dynamic favorites system for user data persistence.

Meet App – Serverless PWA for Events

- Tech: React, AWS Lambda, Google Calendar API.
- Description: Built a Progressive Web App that works fully offline via service worker. Used Test-Driven Development (TDD) to ensure code quality and integrated data visualization charts using Recharts.

Chat App (Mobile Development)

- Tech: React Native, Expo, Google Firebase.
- Description: Mobile Chat application tested on Android and iOS via Expo Go. Implemented real-time messaging, image sharing, and location features using Firebase Firestore and Storage.
